Money in Politics: The Corporate Takeover of our Democracy

with Barry Kauffman,
Executive Director of
Common Cause Pennsylvania

Susquehanna Valley Progressives will host its premier public forum with guest speaker Barry Kauffman who will discuss and answer questions regarding:

- consequences of the Citizens United decision;
- influence of corporate money in elections;
- lack of transparency in government; and
- solutions to restore the integrity and effectiveness of our democracy.

Common Cause/PA currently is working to restore the integrity of the legislative process, and modernize the state's election laws. It is aggressively pursuing campaign contribution limits and a redistricting system that advances voters' interests in competitive elections.
